

TERRA BONNE

Pūr-Sil

15% Silica

Pūr-Sil is a supplemental Silica source compatible with low pH tank mixes. Silica is highly abundant in most soils, but not in a readily plant-available form. Pūr-Sil provides a large supplement of plant-available silica which serves to physically harden and protect the plant from stress and physical damage.

**Contains a Non-Plant food ingredient:
15% Silica (SiO₂)**

Directions for Use:

Rate: Use 1-2 quarts per acre every 7-14 days. Apply 2 ounces per 1,000 square feet in high traffic areas or prior to a tournament.

Lot #120211

Net weight: 9.1 lbs/gallon

Net contents: 2.5 gallons
